Augustine of Hippo (AD 354-430) is arguably the most controversial Christian thinker in history. His positions on philosophical and theological concerns have been the subjects of intense scrutiny and criticism from his lifetime to the present.

*Augustine and his Critics* gathers twelve specialists' responses to modern criticisms of his thought, covering: personal and religious freedom; the self and God; sexuality, gender and the body; spirituality; asceticism; cultural studies; and politics.

Stimulating and insightful, the collection offers forceful arguments for neglected historical, philosophical and theological perspectives which are behind some of Augustine's most unpopular convictions.
