## **Authentic Learning in the Digital Age: Engaging Students Through Inquiry** Larissa Pahomov

How can you create an authentic learning environment—one where students ask questions, do research, and explore subjects that fascinate them—in today’s standards-driven atmosphere? Author Larissa Pahomov offers insightful answers based on her experience as a classroom teacher at the Science Leadership Academy—a public high school in Philadelphia that offers a rigorous college-prep curriculum and boasts a 99 percent graduation rate. Pahomov outlines a framework for learning structured around five core values: *inquiry, research collaboration, presentation* and *reflection*. For each value, she presents:

- \* A detailed description of how the value can transform classroom practice and how a “digital connection” can enhance its application.
- \* A step-by-step outline for how to implement the value, with examples from teachers in all subject areas.
- \* Solutions to possible challenges and roadblocks that teachers may experience.
- \* Suggestions for how to expand the value beyond the classroom to schoolwide practice.
