Algebra is hard, but love is harder

For a twelve-year-old, Bingo Brown has a lot figured out. He has good friends, he knows how to cook, and he's even made peace with the school bully. But the problem with being twelve is that new problems keep popping up and confusing him. Soon Bingo is panicking over the love of his life moving to Oklahoma, the school bully asking for relationship advice, and his parents acting weirder than ever. If Bingo's ever going to make it to high school with his heart in one piece, he's going to need to ace every test in the language of love.
