International Studies: An Interdisciplinary Approach to Global Issues Sheldon Anderson, Mark Allen Peterson, Stanley W. Toops, Jeanne A.K. Hey

This core text is the first to provide a much-needed interdisciplinary approach to international studies. Emphasizing the interconnected nature of history, geography, anthropology, economics, and political science, *International Studies* details the methodologies and subject matter of each discipline then applies these discipline lenses to seven regions: Europe; East Asia and the Pacific; South and Central Asia; Africa; the Middle East; Latin America; and North America. This disciplinary and regional combination provides an indispensable, cohesive framework for understanding global issues.

The third edition includes:

- A new chapter on North America
- Three new global issues chapters: *The Right to Protect*, *New Global Players in the 21st Century*, and *The Arab Uprisings*
