Let's Talk About Math: The LittleCounters® Approach to Building Early Math Skills Donna Kotsopoulos, Joanne Lee

Math can't wait. Children who can count with ease before kindergarten have a better shot at future mathematics success—and with this book, it's simple and fun to **weave counting and other math concepts into everyday activities**. Drawn from the authors'™ playful and popular LittleCounters® workshops, this guidebook shows early educators, caregivers, and parents how to use **purposeful play** with children from birth to 5 to promote mathematical thinking and get them ready for formal math instruction. Packed with easy, no-fear strategies any adult can use—even if you're math-phobic!—this book will help all the teachers in a child's life foster critical early math knowledge and school readiness.

READ THIS BOOK TO

- Discover amazing facts about the mathematical minds of babies and young children
- Transform ordinary toys into learning tools that help teach mathematical concepts
- Organize play environments and activities to encourage math learning
- Spot teachable moments and add purposeful math talk to daily tasks
- Teach "meaningful counting"—the skill that underpins children's potential for future math success
- Infuse math learning into specific daily routines, such as meals, chores, and bedtime
- Support children's readiness for formal math instruction
- Get started with your own LittleCounters® workshop—or use the principles right away in your program or home

PRACTICAL MATERIALS: Examples and vignettes; sample activities and scripts of adult-child dialogue; recommended counting books and songs; and a detailed introduction to interactive LittleCounters® workshops, where parents and kids learn and have fun together.

See which domain of school readiness in the Head Start Child Development and Early Learning Outcomes Framework this book addresses.
