## Global Leadership in Transition: Making the G20 More Effective and Responsive

*Global Leadership in Transition* calls for innovations that would "institutionalize" or consolidate the G20, helping to make it the global economy's steering committee. The emergence of the G20 as the world's premier forum for international economic cooperation presents an opportunity to improve economic summitry and make global leadership more responsive and effective, a major improvement over the G8 era.

"Key contributors to this volume were well ahead of their time in advocating summit meetings of G20 leaders. In this book, they now offer a rich smorgasbord of creative ideas for transforming the G20 from a crisis-management committee to a steering group for the international system that deserves the attention of those who wish to shape the future of global governance."—C. Randall Henning, American University and the Peterson Institute
