When the well-known naturalist and environmentalist, John Muir finally settled in San Francisco, he immediately left for a week-long visit to Yosemite, a place he had only read about. He was overwhelmed with what he saw and he led a successful movement to establish this large national park encompassing not just the valley, but surrounding mountains and forests as well—paving the way for the United States national park system. It was because of Muir that many National Parks were left untouched, such as Yosemite Valley National Park. In 1903 Muir took one of the most significant camping trips with, then president, Theodore Roosevelt. This trip persuaded Roosevelt to return "Yosemite Valley and Mariposa Grove to federal protection as part of Yosemite National Park". Yosemite National Park is spanning across the eastern portions of Tuolumne, Mariposa and Madera and counties in the central eastern portion of the U.S. state of California. It also reaches across the western slopes of the Sierra Nevada mountain chain.
