Joseph Smith

Historical Dictionary of the Cold War (Historical Dictionaries of War, Revolution, and Civil Unrest)

Joseph Smith

Joseph Smith and Simon Davis have captured the essence and madness of the "balance of terror" of the Cold War in the *Historical Dictionary of the Cold War*. Covering an extensive period and much of the globe, this dictionary presents a year-by-year chronology and alphabetical entries on civilian and military leaders, crucial countries and peripheral conflicts, the increasingly lethal weapons systems, and the various political and military strategies.

While both authors are specialists in American foreign policy and diplomacy, Smith has a particular interest in United States relations with Latin America and Davis in Anglo-American relations. This broader focus is helpful, since it enables the authors to have a broader view of the Cold War, and having studied and lived in Great Britain, they view events from a more neutral perspective. This, and a conscious effort to maintain a scholarly balance, enhances the objectivity of this volume. Smith and Davis have produced an easy-to-use reference tool for both the history scholar and student.
