Critical Readings in Planning Theory: Urban and Regional Planning Series (Urban & Regional Planning) Paris

Urban and Regional Planning Series, Volume 27: Critical Readings in Planning Theory presents a critical perspective on urban and regional planning. This book provides an understanding of various theoretical perspectives on planning.

Organized into five parts encompassing 19 chapters, this volume begins with an overview of the economic and social theory of planning. This text then examines the procedural planning theory, which deals with the making and implementing of plans. Other chapters consider the introduction of the systems approach to planning. This book discusses as well the theoretical respecification of the nature of town planning as it has developed under capitalism. The final chapter deals with the ideology of planning that is consistent with the view that town planning can be objectively useful.

This book is a valuable resource for students of planning who want to understand planning as it is. Urban planners and engineers will also find this book useful.
