Problems in Differential Equations (Dover Books on Mathematics)

J. L. Brenner

Problems in Differential Equations (Dover Books on Mathematics) J. L. Brenner

A supplement for elementary and intermediate courses in differential equations, this text features more than 900 problems and answers. Suitable for undergraduate students of mathematics, engineering, and physics, this volume also represents a helpful tool for professionals wishing to brush up on their problem-solving skills.

The book is divided into twenty sections, each preceded by a clear and logical explanation of the basic ideas needed for solving the problems within the section. Many fully explained illustrative problems appear throughout the text. Subjects include applied routine and nonroutine problems in vibrations, electrical engineering, mechanics, and physics. Stars indicate advanced problems. Short mathematical and numerical tables are provided at the end of the book.

From reader reviews:

Timothy Larios:

The book Problems in Differential Equations (Dover Books on Mathematics) gives you the sense of being enjoy for your spare time. You can use to make your capable considerably more increase. Book can being your best friend when you getting strain or having big problem with the subject. If you can make looking at a book Problems in Differential Equations (Dover Books on Mathematics) being your habit, you can get far more advantages, like add your own capable, increase your knowledge about some or all subjects. You could know everything if you like wide open and read a e-book Problems in Differential Equations (Dover Books on Mathematics). Kinds of book are a lot of. It means that, science book or encyclopedia or other individuals. So , how do you think about this reserve?

Dennis Bryant:

In this 21st millennium, people become competitive in every way. By being competitive right now, people have do something to make these people survives, being in the middle of the actual crowded place and notice by simply surrounding. One thing that occasionally many people have underestimated that for a while is reading. Yeah, by reading a book your ability to survive increase then having chance to stay than other is high. To suit your needs who want to start reading a new book, we give you that Problems in Differential Equations (Dover Books on Mathematics) book as starter and daily reading book. Why, because this book is usually more than just a book.

Donna Feuerstein:

The particular book Problems in Differential Equations (Dover Books on Mathematics) has a lot details on it. So when you make sure to read this book you can get a lot of advantage. The book was compiled by the very famous author. Mcdougal makes some research previous to write this book. This kind of book very easy to read you can find the point easily after perusing this book.

Shirley Drago:

Playing with family in a park, coming to see the marine world or hanging out with buddies is thing that usually you have done when you have spare time, after that why you don't try matter that really opposite from that. Just one activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Problems in Differential Equations (Dover Books on Mathematics), it is possible to enjoy both. It is good combination right, you still wish to miss it? What kind of hang type is it? Oh can occur its mind hangout fellas. What? Still don't obtain it, oh come on its called reading friends.
