Beginning with infancy and the diagnosis of congenital or early onset disabilities, this book identifies traditional developmental life stages for those with disabilities as well as the impact of disability at each of these periods. It then provides specific information for four different disabilities: Down's syndrome, visual impairment, cerebral palsy and spina bifida. Spinal cord injury at the young adult stage of development is also included. With this knowledge, the reader can determine expected age-appropriate activities and accomplishments as well as some adapted expectations.

In keeping with a social work emphasis on strengths, the book is based on a social, rather than medical, model of disability. The information
